

## Kids' Birthday Party FAQs

- Please call 72 hours in advance to confirm the number of children attending the party. This is a great time to review the details and make any necessary adjustments. You may also wish to add food and beverages for adults attending the party, a signature bowling pin for your guest of honor, sipper bowling pin bottles, glow jewelry, goody bags and arcade games.
- If you are having a bowling party, please be sure to drop off, fax, call in or e-mail the Guest List and Shoe Reservation Form 72 hours in advance. We will have your automatic scorers programmed and your bowling shoes at the lanes when your guests arrive!
- Please plan to arrive at least 15 minutes prior to the party's start time.
- Please indicate the start time on your invitations as 15 minutes early as well.
- Don't forget to bring the 3 C's (cake, candles and camera).
- All party paper goods (plates, cups, napkins and utensils) are provided.
- Please remember that there is no outside food allowed EXCEPT: cakes, birthday cookie, cup cakes, ice cream and goody bags.
- Adult supervision is required. A good rule of thumb is to have one adult for every 6 children.
- Payment is expected on the day of the party.
- Please note that cancellation fees may apply for cancellations within 24 hours of your party.

### Brunswick Birthday Party KidZ Events:

- A birthday celebration at Brunswick is filled with fun! Shortly after the party begins, the Party Heroes lead the kids in the Cha Cha Slide. This kid-favorite dance is followed by pizza and beverage service, plus bowling fun and games. Before the party ends, everyone will join together to sing "Happy Birthday" to the birthday kids.

### Safety Tips:

- Please do NOT allow anyone to walk down the bowling lane past the foul line (the black line at the beginning of the lane) at any time. The lanes are extremely slippery and can be dangerous.
- If a ball gets stuck, please do NOT retrieve it yourself. Please ask for assistance.
- Please do not let children put their hands in the ball return area.
